ADVERTISEMENT NOTICES

For those who desire to place their advertisements in this paper, please apply to the publisher, J. W. Ward, at his office, 100 St. John Street, Montreal, or to the printer, J. W. Ward, at his office, 100 St. John Street, Montreal.

HOME MATTERS.

Insure at F. Ward's for a good fitting suit for the summer holidays.

The public schools closed yesterday for the summer holidays.

The new piece for the new iron bridge are now completed and ready for the superstructure.

Mr. Arthur Hatch, of Toronto, was in Montreal over Wednesday, visiting relatives and friends.

Mr. G. H. Wilson was the special prize in the contest for the best athlete against several competitors.

Those who are at the Scott House at 11 St. John Street, are certainly having a most delightful time.

The brick work on the Conley block is about completed, and the carpenter is busy fitting up the wood work.

It has been estimated that there will be about fifty scholars more ready for entrance to our new High School.

A large quantity of stone and lumber has been delivered for the new station, and the construction is well advanced.

The first brick of the new High School was laid on Monday morning, and it is expected that within a few weeks the brick work will be completed.

Leave your orders for picture frames at The News-Artist office, a large stock of mouldings to select from, and framing done at lowest possible prices.

A number of Mammals at the Demonstration at the Hotel de Ville on the 24th and 25th inst. were as follows: Bear, F. R. St. John, on Sunday, June 26th.

Mr. Bove has completely refitted and built an addition to his house, and it is now a most comfortable appearance.

The strawberry season is about over. The crop has been a good one, but would have been better had there been more rain. The price has ranged from 10 to 15 cents per quart, the greater bulk of the crop being sold at 8 cents.

Our Samuel Brown, a brakeman on the Grand Junction, was severely injured by falling off a train on Thursday, June 24th. A time has been fixed for his trial, but now it is thought he will recover. He was taken to his home in Belleville.

Mr. J. McKelvie returned yesterday from his trip to Winnipeg and other parts of Manitoba. He returned with a large stock of goods, and he will give the benefit of his observations in a future issue.

We have just added to the News-Artist office a new group from the well-known and reliable firm of Miller & Co., Toronto. The press is one of the best made, and having also lately added a lot of new type and other material to the office, we have now the best facilities for turning out all kinds of fine work in first-class style.

The strawberry and ice cream festival in the Baptist Church last Thursday evening was a most successful affair, the house being crowded to the doors. There was an abundance of berries and ice cream, and all seemed to enjoy the evening. After the festival had been disposed of a very good programme of music and readings was given. The proceeds amounted to \$250.

Mr. G. A. Landon, who was connected with the firm of Gordon, McCreary & Co., until their failure, has been arrested at Belleville. Mr. Landon is well known here and in the vicinity of Hamilton.

At Massena Hill, Stirling, on the festival of St. John the Baptist, June 24th, D. G. M. James Tulloch installed the following officers of Stirling Lodge, No. 1, as follows: Dr. G. W. Faulkner, W. M., re-elected; G. Kennedy, V. M., re-elected; Dr. J. S. Sprague, Sec., re-elected; John Shaw, Sec., re-elected; John C. Wilson, D. G. M.; E. B. Mullock, Chaplain; A. Chard, D. G. M.; R. Reynolds, Tyler; Wilmet Vandercort, L. G.

PROFESSOR VET. Dr. Potts will be at the Stirling House, Private-Prayer where patients will please to consult him. It is almost unnecessary to say that all those who are afflicted with chronic rheumatism, given up as incurable by the local doctors, will do well to consult Dr. Potts. It will cost you nothing to get his opinion and as a large number of the persons who have been cured under his treatment, it is just such cases, there is hope for some. Diseases of the Eye and Ear are also successfully treated. Call promptly for Dr. Potts can only remain one day here. He will be here on Friday, June 25th, until about morning. Patients should call early.

"NIGHT AND DAY," is the title of a magazine published in the city of Montreal by Dr. Burdette for devotees of children, the first number of the new series of which has just been received. It gives a great deal of information in regard to the great work of raising the perishing and starving children of the densely populated districts of England and Scotland, and tells of how they are cared for, and brought up to be useful lives, and are then sent out to Canada or other colonies. The number also contains two articles of pressing interest, "The Re-education of the 'Idiot' at Denham," and "The Remedy of the 'Idiot' at Denham." The work is well worthy the support of all Christian people.

Stirling has never at any particular time before as presented such activity in building, and it is hoped that such a spring fever may ever occur. The erection of our new High School building was a subject brought before the public in the series of the News-Artist. Attention was drawn to the immensity of the task, and the establishment of the High School, and at length a petition was drawn up by the original of the High School committee, and within two days nearly three fourths of the ratepayers of Stirling had signed their names to it, and on the favorable side of the paper, there were some two or three who opposed the scheme, and they are not noted for their literary attainments.

THUNDER IN HENRI RIVER.—Just before going to press we received a notice that William J. Shaw, eldest son of Mr. James Shaw, of Montserrat, had been drowned in a resident in this vicinity, was drowned in Henri River on Friday last. The young man was an expert fisherman, having adopted that as his calling, and was about 24 years of age. He was out on a survey in company with another young man at the time the accident occurred, and the latter's companion paper says:—"W. J. Shaw was a young man of splendid character and great promise. Two years ago he entered the eighth year class in the Ridge Street school, and he was one of the best scholars who had been interrupted in earlier years. His instructors formed a high opinion of his intelligence and earnestness of purpose. He was thoroughly respected by those who knew him, and his relatives at Toronto have the sympathy of the entire community."

Promotion Examination.

The following is the result of the examination in the Stirling Public School, held on June 2nd. Maximum, 447; minimum, 223.

Anglo Moyes, 359; Agnis McKown, 358; Arthur Mackenzie, 358; Louis Hargreaves, 357; Maud Kendall, 351; Lily Thurston, 350; Fred McKee, 350; Sam McCreary, 349; Minnie Finkler, 347; Willie Crosby, 341; Bonnie Gray, 275.

From J. to B. Second.—Marian Scriver, 471; Mabel Vandercort, 418; Blanche Westcott, 412; Alice Carr, 383; Sarah Foley, 381; Minnie Westcott, 380; Edith Conley, 348; Maud Kendall, 346; Frank Rogers, 353; Ross Gray, 316.

Odell's Decoration Day.

The interesting ceremony of decorating the graves of deceased Odellians will take place at the Stirling cemetery on the evening of Wednesday, July 6th.

All the members of the Lodge are requested to assemble at the Lodge room at 8.30 p.m. and be ready for a procession will be held, and headed by the Stirling Odellians' band will proceed to the cemetery. It is expected that each member will provide himself with a bouquet. The tradition is that the departed is becoming very popular throughout Ontario and the general public have caught up the spirit and are giving the graves of their deceased friends with flowers. There is no reason why this should not be the case at Stirling.

During the coming week, a beautiful ground for Decoration Day will not have been fully laid.

Fatal Accident.

On Wednesday forenoon, between ten and eleven o'clock, our village was startled by the news of an accident of the fatal kind, having occurred at the mill of Mr. John Graham, was seriously injured. When Mr. Graham was working. One of the pieces struck Mr. Graham in the abdomen, low down on the left side, inflicting a mortal wound. He was conveyed to his home in less than an hour and a half from the time of the accident.

The wheel which in three pieces, one of which struck Mr. Graham as above stated, another piece went upwards through the upper floor, breaking a plank and a plank standing over where it struck into a number of pieces, and then on to the roof of the mill, the force was spent, and it did not go through the latter. Another piece struck the floor a little back of the machine, and immediately over a large joint, breaking the latter.

Mr. Graham was a well known and respected resident of Stirling, and had for many years carried on a successful business as a landowner and manufacturer of agricultural implements, etc. His bereaved wife and family have the sympathy of the community in this sudden bereavement.

There was a general report. Our informant says that Constable Garratt headed the stampede and nearly broke his neck in the chase. He was seen to be running towards the barn. Right Hicks and R. B. Ostrom also ran. When the shot was fired from the fence it was explained to be from the barn, and directed towards Hicks and Ostrom. They laid down and returned the shots from their positions. The other two then came to the front and opened up. Several shots were exchanged in a few minutes. Hicks was a straw hat, which was evidently made a target of in the line. When on the fence of his house he was struck by a bullet in the arm, a few inches above the head. He and Ostrom then retired, where the three men left the barn and made over a hill to the opposite bank, where they captured the men.

Another Account.

(Intelligencer, June 3.)

Returned from his trip to Frankfort Saturday morning, and on his way back to Stirling.

Highly commending the engagement with burglars on Friday night was a most planned and executed by the young constable, who was seen to be running towards the barn. Right Hicks and R. B. Ostrom also ran. When the shot was fired from the fence it was explained to be from the barn, and directed towards Hicks and Ostrom. They laid down and returned the shots from their positions. The other two then came to the front and opened up. Several shots were exchanged in a few minutes. Hicks was a straw hat, which was evidently made a target of in the line. When on the fence of his house he was struck by a bullet in the arm, a few inches above the head. He and Ostrom then retired, where the three men left the barn and made over a hill to the opposite bank, where they captured the men.

Constable Garratt was in the city this morning and informed a party that if he had only had a lantern he would have captured the men.

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some minor creases and discoloration, characteristic of old paper. The right edge of the page is bound into a dark, possibly black, binding material. There is no text or other markings on the page.

BY FRED. M. WHITE

"I suppose not," Maxwell mused. "These things seem to me a gigantic farce. Would I had remained quietly at home, and empires managed their own affairs. And I shall warn me too."

"[Salvadori] What do you know of him?" the chief exclaimed.

For revenge from the brigands. On the came towards the hut, clamouring for blood and mad with the heat of passion. The rushed in, seized Maxwell, and led him on to the level grass, while six of the party stepped back a few paces and cocked their rifles. The whole thing was so sudden that Lucci and Isadore were so totally unprepared to resist. But the girl rushed herself now and quelling the the hut, swept across the

A Terrible Railway Accident.

An Excursion Train runs into Freight Cars Loaded With Oil.

St. Thomas, July 15.—The most shocking accident that has ever happened in this section of the country occurred here on Saturday night. A special freight train, consisting of a locomotive, a passenger car, and a freight car, was crossing the bridge over the St. Lawrence River, when it struck the freight cars loaded with oil.

The locomotive and passenger car were thrown into the river, and the freight car, which was loaded with oil, caught fire and exploded.

The explosion was so great that it was heard for miles around. The bridge was destroyed, and the freight cars were thrown into the river.

The accident caused the death of several persons, and the loss of many thousands of dollars worth of property.

The cause of the accident is being investigated, and it is believed that the accident was caused by the negligence of the railway company.

The railway company is now trying to recover the cost of the accident from the insurance company.

The accident has caused a great deal of excitement in the community, and many people are now talking about it.

The accident has also caused a great deal of damage to the bridge, and it is now being repaired.

The accident has also caused a great deal of damage to the freight cars, and they are now being repaired.

Hot Weather.

THE LIME-KILN OLD

Two Bides to It

Striker (creeching home at 11 p.m.): Hid yid, shwerd's me supper!

Wife: O'ke, sacker. Oi can't work twenty-four hours a day while yerall waddles pet in this.

Pocketing an Insult

"A small physique at times is a great disadvantage to a man," he said. "Recent history is full of examples of great leaders, conquerors, and statesmen who were inferior, and I could only pocket the insult."

"In what way did he insult you?"

"He offered me a bribe."

McGinnies Poots the Bill

Mrs. Flaherty: "Phawt's this, Mrs. Mc Ginnies? Y'e're bot jist married to 'oldest' husband and it's comin' out in a

Mrs. McClintan—"O! alweis mist
wer moursin! fer poor Mike, but O! miv
bed, the money tiff now. Mcclintan
"well fixed, prasse the saluts j"

The Moral Re Draw.

Sunday school Teacher—"Who were the
children of Israel?"
"Pupils—"Jews."
"What did Joseph's brethren do with
him?"
"Sold him into bondage."
"What moral do you draw from the
reason?"
"Look out for Shoenies if you don't wa
to be sold."

Getting Even.

"My neighbor has thrown her dead

over in my yard," announced a female cat at police headquarters the other day.

"Can you do anything?"

"No, ma'am, I'm afraid not."

"Well, I know. I've got a dog four times as big as your cat, and I'll poison him when he comes into your yard this evening."

She Found Out

"Do you like a moustache?" he asked, and he sat beside her gazing on the rising moon.

"No," she said, "because there are you kneeling, who say the word."

"I don't know," she replied innocently.

"Whether I like it or not. I never hear one on my lip."

"No," she exclaimed, with a long-drawn breath; "the words are."

Had a Few.

A lawyer who was consulted by a young woman from the country in regard to breach-of-promise case asked her if she had any letters to put in evidence.

"Why, yes, I believe I have," she replied.

She was told to send them in that night; look them over, and in a day or two he got a package on which was written: "Can find but these fourteen hundred now; but will, must, put the balance to work."

His Last Hope.

To say that he was hard up would faintly convey the state of impotency in

"All right," growled the indebted one. "You don't suppose am going to pay you any more money, do you?"

"I don't suppose you are, but I am. And that brought him half a dollar on count."

The Way to Say It.

"Which am de preproper way to suppose?" Does yer say? We asked at the table. "Which am de preproper way to ask?" asked one Toronto darkey of another, being engaged in a grammatical discussion.

As they could not agree the question referred to Uncle Nosa for his decision which was:

In de case ob you two nigras none ob you am right."

"What am de proper way to say," stated at de table, "Uncle Mose?"

De proper way for silt cattle as : two am : We fed at de tract."

Be Recognized the Symptoms.

"Mary," he murmured fondly, "did I ever feel a restless fluttering of the heart, cause some one was absent; a sort of yearning which needed the dear presence some one to come and fill it?"

"I have, Augustus, I have."

"Did you ever feel as if the absence some one individual from this earth was

make it unimaginable to you—would you like to know which you must want?—simultaneously and alone?"

"Why, yes, Augustus. I felt just the way when some cold, wicked person would steal my darling little girl."

And Augusta gave it up in despair.

The Meanest Husband in the World

"I think I've got rather the meanest husband in the world," exclaimed a lady who was on a car the other day.

Her friend asked her to explain, and she continued:

"I thought that he was smoking fifty cents worth of cigars per day, and I got him to agree to give me as much pin money per week as the cigars cost. He stuck to it week after week."

"And then what?"

"bought him a clay pipe and a pound of ten cent smoking tobacco, and my income is cut down to two cents a week."

Toronto. T. CASLOVSKY.

Too Much Enthusiasm.

"Teaching, to me, said an enthusiastic young school-teacher, is a holy calling. I am in the young mind the seeds of future knowledge and watch them as they grow and develop is a pleasure greater than I can tell. I never weary of my work."

"I am very sorry," interrupted the young man to whom she was talking, "that you are so devoted to your profession, Miss Clara. I had hoped that some day I might be able to call to you to-night—but unfortunately, as you see, in the light of your

Remedy For Ivy Poisoning.

I have always been extremely susceptible to the poison of poison-ivy and oak so as to give me great annoyance, unless it is immediately checked on the first appearance of the burning itching and swelling so common for those who are properly allergic. I make the application by saturating a slice of loaf bread with water and rubbing over one surface with soda, and then the other, and then with the water alone. When the bread is dried by the animal heat I drop water on the other side so as to keep it thoroughly moistened and dissolve in it a little soda crystal in water. I brush the bread with this mixture, and usually a bread

lance the bread being a vehicle through which moisture the soil reaches the humus. I find that washing or bathing with water, even continuously, will not suffice. My skin requires the heat and moisture of the bread in order for the soil to act on and neutralize the poison. I rarely have need to retain any of the position for more than a few minutes on any one part. No pain ensues. Formerly I suffered for weeks, as the poison would spread over my body. Now thirty minutes merely assures the duration of its exhibition.

A Wife's Explanation.

Violet, M. M. How do people know that it is a cure in the moon?

Mother (laughly) Because it's always out nights.
